## "The Ottawa Spotlight"

A Weekly Review of National Affairs  
By Spectator

Ottawa, Nov. 25th.—The trade agreement just signed by Canada with the small Central American republic of El Salvador, while not affecting a large volume of trade is nevertheless another link in the chain of Canada's reciprocal trade agreements with other nations. We sell wheat, flour, some chemicals and paper to Salvador and buy in return some coffee, fruit and fibres, the total annual trade being under one thousand dollars, but this agreement is another step in our policy of fostering commercial relations with Latin America with which we have a large volume of trade. For twelve months ending Sept. of this year, Canada's total trade with 12 Latin countries of South America, Central America and the Caribbean amounted to \$47 million dollars, which was an increase over the year ending September 1936. There were substantial gains both in imports and exports. In the period ending Sept. 1937 we imported from these countries goods to the value of 27 million and sold to them a total of 20 million. Our purchases consist of various products of the Tropics, coffee, fruits, sugar, cocoa beans, tobacco, with oil in large quantities from Columbia, Peru, Venezuela, sugar and Indian corn and hides from Argentina. These are simply some of the main items. We bought nearly 15 million dollars worth of goods from Argentina during the past year. We imported a great deal of maize (Indian corn). Our exports are varied, covering both natural and manufactured products, potatoes (from the Maritimes to Cuba), wheat and wheat flour, rubber products including tire tubes, prepared tires from the Atlantic and Pacific fisheries, sawn Douglas fir from British Columbia to the Southern Pacific coast countries, powdered and condensed milk, newspaper for the newspapers of Argentina, Brazil and other countries, farm implements and electric batteries and equipment. Here again the list is incomplete, but it will be seen that we have made a good beginning in trade with these Spanish and Portuguese speaking countries of the American continent. As these countries expand industrially and their foreign trade can expand as well as long as we look after it.

An interesting feature of our import trade with Latin America is the extent of our oil (petroleum) purchases. We have an expanding production of high grade oil in our own Valley fields in Alberta, but these wells supply only a small part of our requirements. Refiners bring great quantities from United States oil fields but a large number of the automobiles traveling the roads of Canada are running on gasoline made from the oil which is exported from the wells of the Northwest and Western part of South America. Canada's Foreign Trade.

There was some falling off in Canada's export trade in the month of October compared with the previous October. The total exports of domestic products amounted to \$102,747,000 compared with \$110,959,000 a decline of \$8,212,000. It was wheat which accounted for this decline and more. Wheat exports were \$12,272,000 compared with \$28,550,000, a decrease of \$16,278,000. There was an increase of \$7,425,000 in other products, although this increase did not reach the average advance which has been shown during the past few months. The explanation of the decline in wheat sales is simple enough. Last year the wheat board and other selling agencies were engaged in selling down the Canadian surplus of grain to normal limits. This year there is in comparison little to sell. With the cropover of last year and this year's crop reaching a total of only 219 million bushels, and with domestic requirements at 199 million there remains only 21 million for disposal abroad. From August 1, 1937 to November 12 export clearances amounted to 28 million bushels, a balance of 51 million. If we deduct 35 million as a normal surplus to be held over next August when the crop year ends and another harvest is available, it means that only 66 mil-

lion bushels have to be sold before next August. First, this is not a large amount, and with recent news of frost damage in Argentina wheat fields, which has strengthened prices, holders of Canadian wheat while holding no bar to the export of their product naturally wish to get the best price the market affords. It may be assumed that this ordinary business caution is being used. For Canada as a whole it is little enough recompense for the losses sustained through drought in Saskatchewan. It was in the exports of forest products, principally newsprint paper and woodpulp, and some minerals that the main increases were shown in October.

## DEATH OF PAUL CHRISTENSEN

The death occurred Thursday last in a Calgary hospital of Paul Amund Christensen, 57, of Strathmore, after a long illness. He had been in Calgary for the past 18 days for medical treatment.

Born in Denmark he had resided in and around the place for 13 years, and had been employed with the irrigation department of the C. P. R. for the past 13 years.

He is survived by his widow, Kristina, three daughters, Mrs. A. J. Kemp, Mrs. J. Stewart and Thelma, all in Strathmore, and a son Leslie in Outlook.

Services were conducted by Rev. V. M. Gilbert in the United Church at Strathmore Saturday afternoon at 2 o'clock.

Burial took place in the family plot in the Strathmore cemetery under the direction of Jacques funeral home.

The Pall Bearers were B. E. Fosseden, R. A. Brown, Jas. Gunn, M. Creighton, J. Izard and W. Tumi.

## STRATHMORE'S VACANT STORE WINDOW DISPLAY

The printed word travels far, and plays a part all its own. A copy of "The Standard" containing the write up of the article concerning by the Calgary Cadbury Company's Window display, reached the Head Office of this Firm in Montreal. So pleased were they with the initiative of their Calgary office that Mr. E. C. Toyner, Sales Manager, Montreal wrote a complimentary letter to the Calgary Branch expressing their congratulations and encouraging their firm to continue the work at every opportunity.

They also expressed their appreciation of the kindly comment of "The Standard."

## A WARNING TO PARENTS

Everyone knows that the main function of a board of health is to prevent the spread of disease. How can this be done if parents break quarantine? This matter has been frequently discussed at meetings of the local Board, who have given orders to prosecute if parents neglect to obey the instructions of their officials. Difficulties are apt to arise owing to the Board being handicapped in paying charges. However, a case came before Magistrate Weir last week in which parents, charged with breaking quarantine, were fined a minimum of \$100 and costs, or ten days imprisonment. The Board trusts that this will be a sufficient warning to parents, whose children are infected with a contagious or infectious disease, to keep such children under their immediate care, otherwise they face a heavy fine or imprisonment.

Although the Board is reluctant to prosecute it must do so in the public interest as the law requires.

## PLEASANT SURPRISE PARTY

Saturday evening last about 75 Calgary friends of Mr. and Mrs. Chas. Correll, planned a surprise and festive evening at their newly enlarged home. Following a delicious dinner provided by the guests Mr. and Mrs. Correll were presented with a very handsome brass fireplace set comprising Mirror, Woodbox, Screen, Tongs, Shovel, Brush, etc. Mr. and Mrs. Correll warmly expressed their thanks for the beautiful gifts, after which cards and dancing filled the happy hours.

## A. T. A. MEETING

The November meeting of the Boyvalley A. T. A. local was held at Orange Valley School at 7:30, November 25. Only nine teachers were present. The proposed pension scheme was discussed at some length. Mr. Jamnaghi gave an interesting talk on "Extraterrestrials". On account of the poor attendance the rest of the program was not given. Lunch was served and close of the meeting. It was decided to hold the next meeting in Careland on January 18th.

## THE WORLD OF WHEAT

By H. G. L. Strang Director "Crop Testing Plan"

"Millers won't buy Garnet. It is harming the reputation of Canadian wheat. Farmers should not produce it." These statements have been heard for sometime past, and those who make them point for proof to the wide price spread now current between No. 1 Northern and the one hand and No. 3 Northern and Garnet on the other.

I venture to utter a word of caution to those who are tempted to judge the question of Garnet by the present price situation.

No authority at any time has ever pretended that Garnet is as good a quality of wheat as is No. 1 Northern. There is excellent evidence to indicate that Garnet is a quality wheat of as good all-round quality as is the normal No. 3 Northern, and that Garnet is equal at least to those of the normal price range, such as Australian, Argentine, Russian, Indian and Danubian.

The millers of the world have actually bought since 1928, in quantities not less than 200 million bushels of Garnet and have found a use for it in bold enough to predict, there will be, when the supplies of No. 1 and No. 2 Northern become less scarce than they are at the present time, the normal price spread between 1, 2, 3 and Garnet then will be three days later than Garnet.

## TREES AVAILABLE FOR FARMERS

With reference to the very important function of tree planting in Alberta, it was learned in an interview given recently by the Hon. N. E. Tanner, Minister of Lands and Mines that certain species of trees are available to farmers for transplanting in existing bluffs and the extension of windbreaks. These trees may be secured on application to the Forestry Division of the Department. The principal object in view, Mr. Tanner stated, was to provide transplants a little more durable species for planting in natural bluffs, shelter belts and windbreaks. A number of the native varieties now found in existing bluffs are not as durable as desired and the introduction of exotic species will give the desired longer life to these bluffs. Necessary protection will be given also to the existing trees providing shade, thus ensuring a healthy and more permanent growth.

The Minister stated that there is available for planting in the spring of 1938 a large quantity of larch, spruce, green ash and balsam fir and a limited quantity of white spruce and elm.

## THE PEOPLE'S LEAGUE

Announced only a few days ago, the election of Frank Colloff, Crowsnest, as president of the southern section of the People's League of Alberta has brought a flood of congratulatory letters from all parts of the province.

Widely known among farmers and ranchers, he is a dignitary of the Alberta "Little Breders" Association and owner of one of the finest horsefords herds in the country.

He has long been a staunch supporter of a unified type of government in Alberta for many years.

## HIRE

Caddie, sir? Yes I require a caddie, but I want a boy who is a good counter. I'm playing in the club's monthly competition this afternoon. Do you think that you can count all right?

Yes, sir.

Well, what's eight and seven and nine?

Sixteen, sir. You'll do.

## SUNSHINE SHAFTS

Old Sunshine is going to retire from business. I've heard him say that before. I know, but the judge said it this time.

## Pot Pourri

In form and feature, face and limb,  
I grew so like my brother,  
That folks got taking me for him,  
And each for one another.  
It puzzled all our kith and kin,  
It reached an awful pitch;  
For one of us was born a twin,  
Yet not a soul knew which.

One day to make the matter worse,  
Before our names were fixed,  
As we were being washed by nurse,  
We got completely mixed;  
And thus, you see, by fate's decree,  
Or rather nurse's whim,  
My brother John got christened me,  
And I got christened him.

This fatal likeness even dogged  
My footsteps when at school,  
And I was always getting flogged  
For John turned out a fool.  
I put this question hopelessly,  
To every one I knew—  
What WOULD you do, if you were me  
To prove that you were YOU?

Our close resemblance turned the tide  
Of my domestic life;  
For somehow my intended bride  
Became my brother's wife,  
In fact, year after year the same  
Abund mistakes went on;  
And when I died, The neighbors came  
And buried brother John.

## Protect Your Hard-Earned Savings

THROUGHOUT Canada, life insurance policy-  
holders and beneficiaries should realize the  
menace to their own and the national welfare that  
lies in extreme and unjust legislation.

These policyholders represent 50 per cent. of  
the electors—federal and provincial. Through the  
institution of life insurance, they have so pooled  
their resources that their collective interest can  
withstand attacks that would bring financial dis-  
aster to the individual.

Despite war, epidemic, panic and depression,  
life insurance has met every policy obligation  
promptly and in full.

Despite the financial disturbance of the past  
six years, it has distributed, and continues to dis-  
tribute, to its policyholders and beneficiaries, over  
\$500,000 every working day.

Seventy-five per cent. of this money has been,  
and continues to be, paid to living policyholders;  
the balance to beneficiaries.

Life insurance is the greatest co-operative  
business in Canada. No one doubts its strength  
and stability. No one questions the prudent and  
intelligent direction of its affairs.

It is the guardian of the hard-earned savings  
of 5,500,000 men and women in all walks of life.

Today there are forces in Canada that menace  
the welfare of these people. These forces would  
penalize their savings and impair their investments  
through legislation which cancels public and  
private debts—regardless of the debtor's ability to  
pay—and which tends to destroy the ownership  
of public and private property.

The interests of life insurance policyholders  
and beneficiaries—as of all other citizens whose  
savings are invested in one form or another in  
Canada—demand that promises to be ob-  
served, when the debtor is able to pay; that hard-  
earned savings which safeguard the homes and  
families of the Dominion be protected from unjust  
legislation.

### MR BONNER AND THE WEEKLY PRESS

It was a scathing denunciation of the Weekly Press of the Province that poured from the pen of the above gentleman in a letter to the Calgary Herald of recent date. However it is to laugh as his remarks are so wide of the truth that Weekly Editors will have a feeling of pity rather than of scorn for the writer.

This writer states that possibly certain brands of "crazy water" which are to be had in smaller villages and towns may be responsible for the brand of trash, handed out. Fortunately the lava of the land are referred to the smaller villages as faithfully as in the larger centre. His reference to the "sleepy country hamlet" is again wide of the mark. We know our country hamlet which numbers among its citizens, both men and women people of a highly intelligent, progressive and broad outlook on world questions and life in general, who might rather surprise the writer of the letter in question.

As to the service rendered by the Weekly Press we could cite numerous worth while necessary cases—but why waste time?

### AN "IF" IN SHANGHAI

The profound effect which Japanese victory in China might have on the complicated network of European imperialism in the Orient is indicated by announcement that the Japanese may take over the international settlement at Shanghai.

This warning comes from Lieut. Gen. Iwane Matsui, commander of the Japanese forces on the Shanghai front. So far, it is only a warning; what gives it point is the perfectly obvious fact that if the Japanese decide to take over the international

city, the white powers have no way of stopping them.

Such a development would completely change the picture of Europe as a exploitation of China. The great British investments in China, the vast structure of British trade with China, not to have largely to British sovereignty at Shanghai. Make Shanghai a completely Japanese-ruled city, and the effect on British investments and British trade, as on the investments and trade of other European powers, would be profound.

—The Albertan.

## NIGHTINGALE

On November 10th a large number of friends gathered at the hall to greet Mr and Mrs Herman Hansen. The local orchestra supplied the music and the dancing was peppy. During the supper hour Mr Reg Gladden, assisted by Mrs Chas. Kinnel and Mrs Putnam, presented to the happy pair a great number of gifts. In his remarks Mr Gladden said that we all knew Edna well for many years and we hoped to know her husband better in the future. Mr and Mrs Hansen then in a few words thanked the friends for their good wishes. For they are jolly good fellows was sung and dancing resumed. Mr Hansen's parents, brothers and sister of Standard were among those present. May prosperity and happiness go with the newweds to their new home in Rosebud.

Harley Hartman returned home on Thursday after spending a week in the city. He had several sessions with Mr Harworth.

Mrs Janzen and Mrs Thurston have both been ill with severe colds.

The social ball for last Friday at Valley Garden school was postponed on account of bad weather and general illness.

Christmas is coming soon and the fall of snow makes the season seem very near.

## STANDARD

Tuesday evening, Nov. 16th a social credit meeting was held in the S. & S. Hall. Mr McCune was the guest speaker. There were thirty-four present.

On Friday afternoon the United Church Ladies Aid held their annual tea and bazaar, in the basement of the Church.

On Monday evening a banquet and entertainment was held in the church basement to celebrate the silver wedding anniversary of Mr and Mrs Norruth. They were presented with a silver coffee service.

### STOCK GRAZING IN SOUTH-EASTERN ALBERTA

The period of reduction in rentals for certain lands in south eastern Alberta set aside for the purpose of stock grazing, granted in the spring of 1935 to continue until December 31, 1937, has been extended to December 31st, 1939, it was learned today in an interview with the Hon. N. E. Tanner, Minister of Lands and Mines.

While there has been some improvement of late in stock grazing conditions, Mr Tanner stated, it is apparent from investigation made that lands in the drought area are still unable to satisfactorily maintain the amount of stock per acre required by the regulations.

The original rental rate, inclusive of taxation, was 4 cents per acre or \$6.40 per quarter section. While this rate still continues in more favourable localities, the less favourable ones will continue to be subject to the reduced rates of \$5.20, \$4.20 or \$3.20 per quarter section according to location.

Order in Council, O. C. 1921-37, authorizing this extension is dated November 13, 1937.

### WARNING TO FARMERS

During the Christmas Season complaints often come to hand from farmers who have forwarded consignments of turkeys, etc., to firms in this City. (Vancouver) in response to Press advertising and mail circulars, offering exceptional prices and other inducements.

The ultimate result in many instances is that the farmer receives practically nothing.

It is hard for the average person to  
imagine a soft and long wearing  
sponge made from a spruce tree and  
yet that is the very thing that the in-  
dustrial chemist has accomplished.  
From wood cellulose has come a  
sponge which is softer than chamois  
leather and, unlike the natural sea  
sponge, when used to remove dirt and  
grease, oils or acids, it can be boiled  
and cleaned and thoroughly steril-  
ized, says a writer in the October is-  
sue of C-42 Oval.
